

FieldTime

LandMagic FieldTime is a time and attendance solution for crews and H-2A, plus piece counts, specifically designed for agriculture businesses.

MANAGE YOUR LABOR

Switching to an automated time and attendance management system provides a streamlined process, better control, improved compliance, in-house intelligence, and increases accuracy - all for less money than a manual system.

Workers clock out at Sorrells Groves, Inc., Arcadia, Florida

FieldTime gives you the freedom to simplify the payroll cycle and increase productivity. Review, edit, and approve employee data from the Internet.

Help reduce fines from regulatory agencies and protect against lawsuits. Federal regulations are becoming more and more strict. FieldTime provides detailed record keeping of workers' contract terms and time: clock in, breaks, clock out, piece counts, reasons for absence.

LandMagic FieldTime is a web-based application that allows access from any location with Internet connection, any operating system, at any time. Web-based also provides users with quick, secure login to FieldTime and the comfort of knowing your data is safe. Multiple language support enables users to view the application in English, Spanish, and Chinese, and Portuguese.

Our developers are dedicated to agriculture, and our software is designed that way. LandMagic FieldTime's user-friendly interface and simple functionality results in little or no training, saving you time and money. Also, our transaction-based model means you only pay for what you need.

BENEFITS OF FIELDTIME

-  Calculate time worked, eliminate manual timecard calculations
-  Track regular and H-2A field workers' status and activities
-  Document workers' reasons for absences more effectively
-  Check in/out individual workers or crews quickly and easily
-  Import time, attendance, and piece count into your existing payroll systems
-  Collect field data for simple record keeping of your land

EXTEND DIRECTLY TO THE FIELD WITH MOBILEMAGIC FIELDTIME

Now you can clock in/out crews in the field using your own mobile device. Time and attendance is automatically updated to the office in real time providing fewer errors. Device flexibility offers integration with a variety of time keeping hardware to successfully upload and download workers' time up to the minute.

FIELDTIME ADD-ONS

FieldTime add-ons enhance features based on your company needs. Payroll add-ons for QuickBooks, ADP, and Dynamics NAV, and Citrus Pro allows you to integrate FieldTime with your existing payroll system.
